PHOTO INTELLIGENCE MEMORANDUM

Veterinary Institutes, Leningrad, USSR

25X1A This memorandum reports the completion of a request by [REDACTED] [REDACTED] OSI/Med. for information concerning two veterinary institutes in Leningrad.

25X1A

This was a "crash" project and we had only one day to satisfy his request.

25X1A [REDACTED] gave us the information that there is a Veterinary Institute located at No. 5 Chernagovskaya Ulitsa and a School for the Advancement of Veterinarians located at No. 15 Mokhovaya Ulitsa. His request was that we pin-point on aerial photographs the exact location of these establishments. According to the requester, the possibility exists that ground photographs may be taken and/or surveillance of these buildings may be undertaken if their approximate location could be determined.

25X1B

[REDACTED]

The requester was given a copy of the AOF Target Mosaic of Leningrad with the location of the desired Institutes circled in red pencil. He was very gratified with our results. He was informed that D/GP was already over-taxed with high-priority projects, but if he wanted large-scale photographic enlargements of the buildings they could be obtained from OCD/GR.
